Lakeland tourism study underway

A survey of opinions and search for usable ideas to further promote the Tourist industry in the Lakeland, Zone 6, has been undertaken. Roman Consulting Services Ltd., of Edmonton have been retained to do this survey. At a series of open house meetings, they have gathered input from the four corners of the zone.

Elk Point's C. of C.'s Tourism committee, headed by Ron Barwick, brought their suggestions to the last open house, held at Bonnyville, Oct. 10th, in the Provincial Building. Representatives from Bonnyville, Grand Centre, Cold Lake, Esso Oil Co. and St. Paul were also on hand. Each offered ideas and some criticisms, and a few ways these problems might be addressed.

The emphasis was on how local businesses and groups could improve the zone's attraction as a tourist magnet. Some of the suggestions put forward were: service outlets opened 24 hours — or at least later in the evening; tourist information available year round; high-powered boats banned from some lakes; better 'policing' of campsites and/or promote private campsites.

Co-operation between towns was seen as a must; events could be better advertised; roads could be improved; roadsides are often unsightly, giving a poor image of our opinion of our countryside. One person put forward the idea that cottages for rent are very scarce in what is "cottage country" — with suggestions that perhaps owners could rent their facilities when not using them; with so much oil development in the area, it could be a major tourist attraction — what can oil companies do to make their industry a draw for tourism; fishing is a major drawing card — more attention could be made to keeping the supply up.

A major criticism was the attitude of staff and service people, some are discourteous — a course was suggested for such workers who so clearly influence the tourist industry.

(Cont. on Next Page)

HARVEST WHILE THE SUN SHINES — Combines were two and three to a field during the two days of harvest weather last week. By this late in the fall, every minute and every bushel counts.

Harvest progress slow

Harvest in the Elk Point area is progressing on a 'one day at a time' basis, due to unfavorable weather conditions. Alberta Wheat Pool spokesperson Doreen Younghans reports that two to three weeks of favorable weather are still required to complete harvest.

Last week saw two days of relatively good harvest weather, with warm winds gradually drying the soggy swaths and allowing farmers to get a few more bushels in their bins.

As of last Thursday, only 10% of the oat crop, 15% of wheat, 20% of barley and half of the canola crop had been harvested. All of the fall rye has been harvested, and all swathing in the area has been completed.

Grades of harvested grain are below normal due to the delayed harvest. Only 5% of the wheat crop is grading 2CW, with 75% grading 3CW and 20% grading Canadian Feed. Seventy percent of the barley crop is graded at #1 Feed, with 20 percent grading #2 Feed and 10 percent grading #3 Feed.

The canola crop is least affected by the weather, with 70 percent grading #1CR, 20 percent at #2CR and 10% at #3CR.

All systems go for arena activities

Fears that all winter activities at A.G. Ross Agricentre in Elk Point could be cancelled for the 1985-86 season were alleviated Thursday night when a much larger group of interested individuals turned up for the second attempt at getting the season underway.

Twenty eight Agricultural Society members, as compared to eleven at last week's meeting, were on hand, including many willing to take part in the business of running the arena's winter activities.

No president has yet been found for the Society, which also lacks a Second Vice President at this time. Leigh Babcock was elected as First Vice President, with Carol Metz as Secretary and Orest Capjack as remaining Treasurer.

It was decided to have one director in charge of each arena use group or activity, instead of electing a group of directors-at-large as has been done in previous years. The directors are as follows: Slowpitch tournament — Ron Onusko; Horse Rally — Leigh Babcock; Hockey Tournament — Del Smith; Agricultural Fair — Margaret Modin; Arena Booth — Leona Bretzer; Ice Schedule — Milton Lorenson; Advertising Signs — Larry Demchuk; Minor Hockey — John Yakemchuk; Figure Skating — Sharil Baumgardner; Broomball — Gordon Gregoraschuk; Ringette — Bev Beasley; Elks Hockey — Murray Cochrane; Senior Hockey — Ken Kadutski.

Past President Glen Flanders will serve as acting chairman until a president can be found.

Rod Boothman has been hired as caretaker and icemaker for the coming season. Boothman recently attended an icemaking school to learn the basics of the job.

Ice fees will remain at the same levels as the past two years for all activities. It was noted that there may be as many as eight senior hockey teams using the ice this winter.

The Ag. Society has decided not to run their usual lottery this year. However, they will be turning more to the agricultural side of things, sponsoring a farm safety seminar in early February and a canola or barley seminar later in the spring.

A full financial report of the past year was given, with the booth once again providing the lion's share of the income. The booth made an operating profit of over $14,000 in the 1984-85 season, offsetting a $3000 operating loss and providing funds for some much needed refurbishing in the arena.

A recent donation by Minor Hockey in the amount of $2600 will be put towards this year's operation.

The Ag. Society regular meetings are held on the first Thursday at 7:30 p.m., and all members were invited to attend these.

Tonight!

Dewberry News Roundup

By Cliff Cunningham
Dewberry Correspondent

Dewberry's New United Church Minister held his first service on Sunday October 6th with a good turnout. Rev. Ted Norris and his wife Meg have four childrens: Christina aged 10 years, Cragg 7, Joanna 4 and Rebecca 1 year old. They are living in Islay as there was not a suitable house for rent in Dewberry.

Service will be held every Sunday at 9:30. We wish you the best of luck in Dewberry and Islay.

Iris Hodgson and her daughter Julie Illingworth are painting the inside of the house that Loyal Krawchuk used to live in. The new owners are Frank and Nina Smith from Saskatchewan. Nina is a sister of Bill Brock. Mr. and Mrs. Brian Fenton have move in their new house in the south east part of Dewberry. Another new house has been started in the same part of Dewberry. Rick Good and others have been fixing up the outside of their homes in that part of town and a small park is also taking shape with a children's play ground in the near future.

The Council of the County of Vermilion River sponsored a meeting in the Dewberry School on October 4th for the Farmers and Ranchers, discussing the drought assistance program announced by the Minister of Agriculture sometime ago. A good crowd turned out to hear M.L.A. Bud Miller and others.

Larry Bensmiller was in town on Saturday September 5th, rototilling some gardens before freeze up. The way our weather is these days it could freeze the ground anytime now. Harvest is held up again and there was ice in a dish of water that I have out for the birds. Today, October 6th it only got up to 28° F above.

A potluck supper was held in the United Church Hall Sunday October 6th with around forty or more turning out to meet our New Minister and his wife and family.

A crew of seventy or more are rebuilding the railroad. They have several bunk houses and other supply cars. It's sure pretty at night when the lights are on in all of the bunk houses (ect.).

Tourism study

(Cont. from Prev. Page)

A suggestion that government could help by providing a Tourism Director was put forward.

A need for a Convention Center was suggested; and the greatest need — positive attitude by the residents, a pride in our towns and their people, and in our local activities — was reiterated.

All these suggestions will be added to the list of suggestions gathered in the other centers visited by the consulting team, they will be analyzed and the final result delivered to the Lakeland Tourist Association. It should prove an interesting conclusion.

ELK POINT, ALBERTA

Recreation Corner

By Linda Simpson
Recreation Director

I trust everyone survived the long weekend unscathed with the exception of a few stretched stomachs. Let's see how we might wear off all that pumpkin pie and turkey.

DASH N' SPLASH — Starting on November 2nd, Sharkey's Bus Service will be making stops at Lindbergh, Heinsburg, and Elk Point to take people to the St. Paul Swimming Pool. The bus will stop at: Heinsburg - 11:00 a.m. (School); Lindbergh - 11:30 a.m. (Post Office); Elk Point - 12:00 p.m. (Community Services Center).

Be prepared to pay the $16.00 fee which includes four trips to the pool and admission. The bus will run on Saturdays as follows: November 2nd, November 16th, November 30th and December 14th. See you on the bus!

KARATE CLINIC — Register at the Recreation Office for this clinic open to ages 9 years to adult. Previous karate experience is not necessary. It will be held at the F.G. Miller School on November 23rd and 24th. There will be a $5.00 registration fee.

HEINSBURG YOUTH CLUB — This program runs every Tuesday from 7 p.m. to 9 p.m. at the Heinsburg School. Phone Adrianne Kiss at 943-3913 (Bus.) or Parrish Tung at 943-3932 (Res.) for more information.

NEW PROGRAMS — If you are interested in joining **Army Cadets** or a **Marching Band**, please phone 724-4074.

SWIMMING LESSONS — Phone 724-4074 and submit your swimming level and offer to drive occasionally, and I'll try to coordinate some drivers with swimmers in order to car-pool to lessons in St.Paul.

BATON TWIRLING — Don't forget that Baton is meeting for the first time on Thursday, October 17th at the Elementary School gym from 3:30 to 5:00 p.m.. Registration and baton sizing and ordering will occur at this time. There will be a $5.00 registration fee.

ADULT BADMINTON — If you feel like batting the birdie around, come to the Community Services Center gym at 12:15 to 1 p.m.. Please phone ahead so nets are available (724-4074).

See **YOU** out and about in the community!

What gives you the most value for your food dollar? Fish and seafood have to be the catch of the day — any day. Because fish and seafood are an excellent source of protein and usually much lower in fat than pork and beef and other protein sources, they are an absolute must for today's thinking about good nutrition for you and your family's health. What is even more important is the dollars you save. **COMPARE** — most of the 50 varieties High Arctic carries are boneless, pan ready and easy to prepare and are priced between $1.00 to $3.99 per pound BUT because of its high protein and limited shrinkage, it only takes 4-6 ounces of fish product per serving, or approximately $.50 to $1.50 per serving compared to 8-12 ounces of other meat products which can cost from $1.50 to $3.00 per serving. **SO WHY NOT JOIN THE HEALTH FOOD CONSCIOUS AND SAVE BIG FOOD DOLLARS.** By the way, you can even stretch your dollar further by preparing mouthwatering seafood chowders, elegant appetizers, savory soups, refreshing main dish salads or delicious family style casseroles or intriguing party dishes. Just see High Arctic's most friendly and helpful staff for a money saver recipe book and venture into a new gourmet experience.

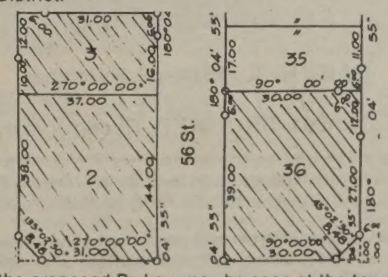
LAND USE BY-LAW AMENDMENT BY-LAW 422/85

TAKE NOTICE THAT the Council of Elk Point proposes to pass an amendment to the Land Use ByLaw #312 of the Town of Elk Point.

THE PURPOSE of the proposed by-law is to amend By-Law #312 to rezone Lot 36, Block 5, and Lots 2 and 3, Block 6, Plan 842 1406 from R3-Residential Land Use District to RMH2-Residential Mobile Home Land Use District.



A COPY of the proposed By-Law may be seen at the town office and may be inspected by the public at all reasonable hours.

At 6:30 p.m. on Monday, the 28th day of October, 1985, the Council will hold a Public Hearing at the town office at which time objections to the proposed By-Law may be made and discussed.

DATED at Elk Point this 15th Day of October, 1985.

L. Patrick Vincent
Municipal Administrator

Editorial

From apathy to action

Last Thursday's turnout at the special Agricultural Society meeting to decide upon the fate of winter ice sports in Elk Point was encouraging.

To borrow a phrase from the government, the nearly-triple attendance would make one "cautiously optomistic" that people do care, after all.

The announcement that the arena might have to shut down was made over the public address systems in both schools, as well as appearing in print, and this may well have been responsible for getting a number of people out to the meeting.

It is amazing how much power of persuasion can be exerted by children who are told they may not be able to skate or play hockey during the coming season, a power somewhat like that exerted when those same youngsters see the latest "must haves" in Christmas toys on television. We all want our offspring to think we are doing our best to provide for their comfort and enjoyment.

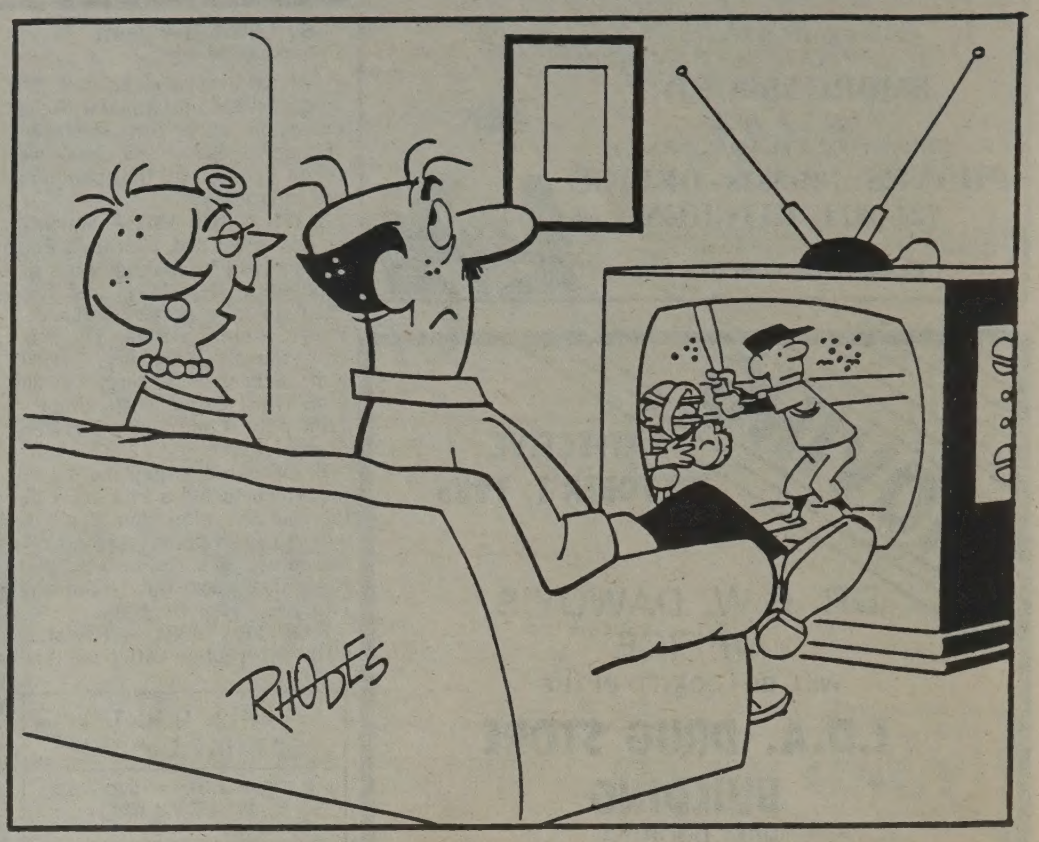
If it took this route to get the people out, perhaps it is a method that should have been in use for years to ensure that better than a dozen people will attend these meetings, and become involved in the operation of the ice sports program.

It was good to see representatives from the numerous adult groups who will also be using the ice, and to see them at least willing, if not eager, to become part of the board of directors.

The new method of finding directors, by having each responsible for a different group or activity, seems to be a giant step in the right direction. It is far easier to be a director if you know what you are directing and if you have specific responsibilities to take care of.

Now, it is time for the rest of us to get involved, and to help the new executive carry out the work of running the arena for the upcoming season. If we all pitch in, it won't mean that much work for any one person. Remember, it is our community and our young people who will benefit from these efforts.

And isn't there someone out there who would like to be President? The Ag. Society would like to hear from you, if you are that person.



"SURE, I KNOW WHAT A DOUBLE-PLAY IS. THAT'S WHEN THEY SQUEEZE IN TWO COMMERCIALS BETWEEN INNINGS."

FURTHER ED TRIES TO HELP US LEARN TECHNIQUES — So we can follow our creative urges. Pottery is a wonderful source of self-expression, as these lovely containers display.

"Second Class Mail Registration Pending"

CCNA VERIFIED CIRCULATION PAID

ANNA

green acres

by TERRY HOLMGREN, D.A. Alberta Agriculture, St. Paul, Alta.

On September 1, alberta Agricultures' Feed Grain Market Adjustment Plan came into effect. through this plan livestock producers who feed grain are eligible for a price reduction on purchased grain, or a grant on home grown grain fed, of up to $21 per tonne. The purpose of the plan is to balance the benefits given to grain producers who receive government subsidized rail freight rates.

All livestock producers who feed grain are eligible for the program. Feed users who buy grain are issued certificates which they can use as part payment ($21 per tonne) when purchasing grain. Farmers who have registered for the program and are using their own grain will be able to submit claims periodically based on the amount of grain used, and the numbers of animals marketed or the size of breeding herd maintained.

We are especially concerned that farmers who plan to make feed purchases in the near future register for the plan so they can obtain certificates to use as part payment when they are buying feed. There is no provisions in the plan to provide refunds to grain buyers who have paid in full for grain purchased without certificates. Grain buyers need the certificates to benefit from the program. Approximately two to three weeks is required from registration until certificates are received.

Local District Agriculturist's offices are handling the information and registrations for the program. For registration an estimate of grains fed to each class of livestock is required. Registrants must also present a copy of their Canadian Wheat Board Permit Books when they have one.

For the past five years the Alberta Certified Preconditioned Feeder Program has encouraged producers to precondition their beef calves before selling them.

Preconditioning involves weaning at least thirty days before sale date, as well as castrating, dehorning, treating for warbles, and vaccinating for I.B.R.. Those farmers who participate in the Certified Program have the cost of a veterinarian's visit to the farm to verify that conditions are being met convered by Alberta Agriculture.

Why precondition? Data collected from buyers through the Certified Program demonstrates that preconditioned calves have substantially lower treatment rates and death losses than regular auction calves. 9.6 percent of preconditioned calves had to be treated versus 21.4 percent of regular calves. The death loss of preconditioned calves was only 0.6 percent compared to 1.9 percent of regular auction calves.

Because preconditioned calves have a lower rate of sickness and death, go on feed faster, and start gaining sooner, buyers have been willing to pay a premium of about $5 per cwt for them. This premium plus the extra weight that calves gain while on feed between weaning and sale date should make preconditioning a profibable proposition for the calf producer.

Sixteen sales have been scheduled across Alberta this fall specifically to handle certified preconditioned calves. For this area the Bonnyville Auction Market will be holding sales on November 27 and December 4.

Letters to the editor

Hall of Fame nominations sought

To All Sports Fans and Groups:

Nominations are being accepted for Athletes, Builders, or Teams for Induction to the ALBERTA SPORTS HALL OF FAME.

Nominations are also being accepted for the Bell Memorial Award given to members of the media who have contributed to amateur sport through their work.

The deadline for nominations is JANUARY 31, 1986. For nomination forms and information, please contact:

Alberta Sports Hall of Fame
150 -6th Avenue, SW
Calgary, AB T2P 3Y7

or phone us at 269-6000.

There are many worthy individuals who have made great contributions to sport — let's make sure they are nominated.

Yours truly,
Lorraine Wylant, Coordinator,
Alberta Sports Hall of Fame.

From the Sergeant's Desk

By Sgt. Jim Fell
Elk Point RCMP Detachment

Last week I attended a Seminar on the amendments to the Impaired Driving Legislation as it now stands. These amendments will come into effect on the 2nd of December, 1985 and will have fairly severe ramifications on Impaired Drivers.

The new legislation will allow a Peace Officer to demand a BLOOD test on a suspected Impaired Driver if he is unable to give a breath test. For instance, if a person is hurt in a traffic accident and is suspected of being Impaired and because of his injury it would be impractical for him to attend a police Detachment, the Peace Officer could demand a Blood test. Refusal to provide the Blood test without reasonable excuse would result in him being prosecuted for not providing the sample.

If an impaired driver has caused the death or injury of any person and he himself is unconscious, a Peace Officer may get a warrant and have the blood taken by a Doctor. The Doctor can take the blood as long as he feels it would not endanger the life of the suspected Impaired person.

The penalty for impaired driving and causing the death or injury to any person has been increased substantially and could result in the person spending several years in a Penitentiary.

I have only given you a very broad overview of the new law as it is much more involved than I have explained here. These laws have been enacted in response to the public outcry that many Impaired Drivers get off scot-free after having killed or maimed someone because they too were injured in the accident and they cannot be given a breath test. This is in many cases true. This legislation should cover that.

Lakeland College expansion set back by fire

A $3.2 million blaze which reduced the former administration building and residence at Lakeland College's Vermilion campus to smouldering rubble has caused a severe setback to plans to enlarge and renovate the structure as part of the college's ongoing expansion program.

The October 8 fire started at approximately 9:00 p.m., with the Vermilion Fire Department remaining on the scene all night containing the flames. A team from the Provincial Fire Protection Branch was slated to begin an investigation into the cause later Wednesday.

The four storey structure was vacant at the time, as all offices and services normally housed in the building had recently been relocated to other parts of the campus in preparation for the $8.5 million expansion. The building program was slated to commence in November of this year, with completion in January 1987, and was to include new offices, a cafeteria, library, and large lecture auditorium and theatre.

The building was the oldest remaining structure on the campus, being built in 1928. It served as a residence until the fall of 1983 when the new residence complex was completed.

College spokesperson Cathy Bishop said that the fire has caused little disruption on service on the campus. The college's main telephone switching equipment is located in the basement of the burned building, but was apparently not affected by the fire.

Ms. Bishop reported that the college will be having "immediate discussions" with the architect to determine alternatives to the renovation. there is some speculation that the largely intact brick front of the building could be preserved and used as a facade for the new structure.

Two burned at Amoco site

Two employees of Sparrow Electric Ltd. of Nisku, Alberta sustained facial burns last week as the result of a flash fire of unknown origin.

The October 8 blaze occured while Andrew Welecki and Clint Undseth were installing electrical conduit in a building forming part of Amoco Canada's Elk Point Heavy Oil Cleaning facility, now under construction.

The injured men were admitted to Elk Point Hospital immediately after the incident, and were later transferred to the University Hospital Burn Treatment Unit in Edmonton, where they are in stable condition.

An investigation into the cause of the fire is underway, and should be concluded by the end of this week. Structural damage to the building was light.
